Technologies and Infrastructure Development

MOSCOW
МОСКВА
TLDs for Russian Capital

www.faitid.org

.MOSCOW at First Sight

- Started by RU-CENTER in 2010
- ASCII and Cyrillic
- Pilot Project

FAITID

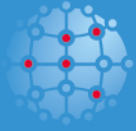

Foundation for Assistance for Internet
Technologies and Infrastructure Development

Why?

- To create the brand of the city in the Web
 - To attract additional target audience on websites related to Moscow
 - To give one more boost for Internet technologies development in the city
-
- Finally: to enhance investment attractiveness of the city

www.faitid.org

FAITID

Technologies and Infrastructure Development

Current Status

- Official website (www.domainmoscow.org)
- A collection of signatures
- Promotions in the Internet community and among citizens
- Governmental Support
- A member of dotCities interest group
- Preparation of an application to ICANN

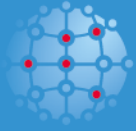

FAITID

Foundation for Assistance for Internet
Technologies and Infrastructure Development

Promotional Activities

- Several actions were held in Moscow to make citizens aware of the project

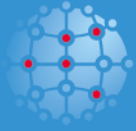

FAITID

Foundation for Assistance for Internet
Technologies and Infrastructure Development

Grounds for Success

- Moscow has the most developed economy in Russia
- 40% of .RU domains are registered in Moscow and nearby (about 1,4 million)
- .MOSCOW/.MOCKBA will have competitive pricing model

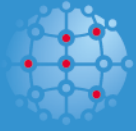

FAITID

Foundation for Assistance for Internet
Technologies and Infrastructure Development

Some Policy Points

- Reservation for government
- Reserved second-level domains (.SCHOOL .MOSCOW, etc.)
- Priority for Moscow residents at initial stages of registration (Sunrise, Landrush – TBD)
- No restrictions in the long run
